

This is a resource for LBS Facilitators who have learners using the CLO resource “Accessibility Features in the Build Your Skills Learning Hub!”

This resource is designed for learners to work independently or with a tutor. It does not need to be completed in a single session. Learners can take breaks as needed.

Note: As part of this resource, learners are told to open a browser and log into the Build Your Skills website (<https://www.ctaontario.ca/build-your-skills/>).

Before assigning this activity to a learner, instructors should:

- confirm the learner has access to a computer or mobile device with access to the internet.
- confirm that the learner has already created a Build Your Skills account and has received their username and password. For support with creating an account, please reference the resource “Introducing the Build Your Skills Platform.” *Note that account creation can take up to 24 hours.*
