### Curriculum Resource

*Are You Ready for Grade 12 College Math?*

Adult Education centres are sometimes contacted by adult learners who want to upgrade their Grade 12 math credit for college admission. However, because some of them have been out of high school for a few years, they might not remember the prerequisite math needed to succeed in the Grade 12 course.

This resource is intended to be a standalone assessment to test a prospective Adult Ed student's readiness for Grade 12 college level math credit courses. It will include two separate assessments to test the Grade 9-11 prerequisite knowledge required for either MAP4C – Foundations for College Mathematics or MCT4C – Mathematics for College Technology.

Ideally, an Adult Ed centre would give the prospective student a link to the assessment and, based on the results, either register them in the Grade 12 math credit course (if they do well), or refer them to the LearningHUB for math upgrading (if they do poorly).

### OALCF Alignment

Competency	Task Group	Level
Competency A - Find and Use Information	A1. Read continuous text	2
Competency A - Find and Use Information	A2. Interpret documents	2
Competency C - Understand and Use Numbers	C1 - Manage money	2
Competency C - Understand and Use Numbers	C1 - Manage money	3
Competency C - Understand and Use Numbers	C3 - Use measures	2
Competency C - Understand and Use Numbers	C3 - Use measures	3
Competency C - Understand and Use Numbers	C4 – Manage data	2

<b>Competency C - Understand and Use Numbers</b>	<b>C4 – Manage data</b>	<b>3</b>
